Series: Issues in Toxicology

ISSN: 1757-7179

Publisher: Royal Society of Chemistry

ISBN: 978-1-83916-719-5

Price: £149.00 | \$205.00

Publishing date: 01/07/2024

Target Audience: College/higher education, Professional and scholarly

Format: Hardback

Edition: This issue provides analysis of the fundamental mechanisms of mutations covering clinical and experimental aspects. Aimed at postgraduate students and researchers in reproductive and developmental toxicology, it will also interest those in the fields of genetically inherited diseases and heredity, developmental biology and potentially those with a more clinical background.

Brief Contents

- Three Generation Study on the Male-mediated Developmental Toxicity in Mice Exposed to Bisphenol A and Bisphenol A...Irradiation Combination
- Male Reproductive and Developmental Toxicity Associated with Exposure to Engineered Nanoparticles
- Male Infertility Mediated by Gene Mutation
- Roles of Epigenetic Modifications in Male Reproductive Toxicity
-
